## BIMP-EAGA 2022

---

**BIMP-EAGA 2022** is a major Ports, Shipping and Logistics Exhibition and Conference which will be held on 2 – 4 August 2022 at the Shangri-La Tanjung Aru Hotel, Kota Kinabalu. The event is a major highlight among the BIMP-EAGA community and is highly anticipated by those following developments in the Brunei Darussalam–Indonesia–Malaysia–Philippines East ASEAN Growth Area (BIMP-EAGA) market.

Themed “BIMP- EAGA: The road to R.I.S.E (Resilient, Inclusive, Sustainable and Economically Competitive), the conference will feature more than **20** industry leaders discussing EAGA’s trade economy, market potential and innovations within EAGA ports to improve economic competitiveness.

Seven sessions are lined up for the 2-day conference and will cover areas related to investment opportunities, transformation strategies of EAGA port, container shipping and movement within EAGA, port automation, future direction and initiatives for ports, shipping and logistics in Malaysia.

Participants will have the privilege to know about port development as well as the trade perspective from the private sector (BIMP-EAGA Business Council), analyse market opportunities as well as gather with like-minded professionals for networking purposes.

Hosted by **Sabah Ports Authority** and **Sabah Ports Sdn Bhd**, this maritime event is fully supported by the **BIMP-EAGA Business Council** and is co-organised by **Transport Events Management** and the **Chartered Institute of Logistics and Transport Malaysia**.

There will be a concurrent trade exhibition of **40** international and local companies and sponsors showcasing port and transport related state-of-the-art products, services and latest technologies for ports, shipping and logistics.

According to Datuk Ng Kiat Min, Managing Director of Sabah Ports Sdn Bhd “Sabah Ports is keen to strengthen sub regional cooperation among BIMP-EAGA ports. We celebrate a high level of friendship and see each other as strategic partners and important neighbors. Through dialogues, we hope to see opportunities to synergize the strength of EAGA ports and explore cooperation to enhance trade facilitation especially in enhancing logistics capacities for a cost effective and efficient supply chain.”

She further added “Sapangar Bay Container Port (SBCP) can be a prime transshipment hub for the EAGA region. SBCP’s strategic location along the main shipping route of the East Asian sea trade and the center of the BIMP-EAGA region has made it a preferable route. Once the SBCP expansion is complete, SBCP can provide a strong base for cargo consolidation and generate increased traffic, cargo movement and promote sustainability of trade between Sabah and EAGA partners.”

The BIMP – EAGA 2022 host, organiser and supporting partners look forward to have your participation at this major Ports, Shipping and Logistics Exhibition and Conference.
