

SABAH PORTS ACHIEVES ISO 45001 AND ISO 14001 CERTIFICATION

Sabah Ports Sdn Bhd (SPSB) is proud to announce the achievement of the ISO 45001: 2018 and ISO 14001: 2015.

Receiving accreditation from the National Institute of Occupational Safety and Health Certification (NIOSH CERT), the certifications are in Occupational Health and Safety Management System (ISO 45001) and Environmental Management System (ISO 14001).

The accomplishment underscores SPSB's strong commitment towards providing a safe workplace environment for its employees and ports users as well as minimizing environmental impact of its operations by adopting internationally recognized standards managed by an effective quality management system.

The ISO 45001 provides a framework for a safe and healthy workplace by preventing work-related injuries and ill health, while the ISO 14001 sets a guideline for successful environmental management.

The accreditation is an approach by SPSB towards becoming a more competitive port, especially in the Asian region, by embedding safety values and environmental obligations within its business operations.

Datuk Ng Kiat Min, Managing Director of SPSB said "Occupational health and safety is no longer handled as a "stand-alone" issue, but must be viewed in the context of running a healthy and sustainable business. A robust occupational health system leads to increased company performance thus strengthening the company's reputation and the trust of our stakeholders."

“ISO is one of the most rigorous standards of industry excellence and SPSB is proud to be aligned with this global benchmark. Adopting world recognized best practices at our ports will drive continuous improvement, reinforced with safety and environmental compliance to the ISO.”

A certificate handover ceremony was held at Wisma Sabah Ports, Sapangar whereby NIOSH CERT Region Manager (Sarawak) Mr. Lawrence Ceaser Chau had presented the certificates to Datuk Ng. The event further recognized SPSB managed ports that achieved zero Loss Time Injury (LTI) for 2022, namely Sapangar Bay Oil Terminal, and Ports of Tawau, Lahad Datu, Kunak and Kudat. Lost Time Injury is categorized as incidents that result in a disability or an employee missing work due to an injury.

The ceremony was attended by Datuk Hj Faisyal Datuk Yusof Hamdain Diego, Chairman of Suria Capital Holdings Berhad and Sabah Ports as well as officials from Sabah Ports Authority, government agencies, heads of logistics associations and Sapangar Bay Oil majors.

Lawrence handover certificates to Datuk Ng, witnessed by Datuk Hj. Faisyal and senior management.

Issued on 22nd March 2023
